

## **ABT Sportsline 2016 – Press release CW34** **A better performance – permanently: ABT POWER DAYS**

Once upon a time, autumn and winter were considered dark and gloomy seasons, and car drivers had a lot of trouble and no fun. This has long since changed. Now cars are winter-worthy and driving can always be fun. So it makes sense to have your Volkswagen, Audi, Seat or Skoda upgraded, especially when the **POWER** treatment is administered by the leading enhancer of cars produced by the Volkswagen Group and is particularly inexpensive during the **ABT POWER DAYS** from **15 - 27 September 2016** at the company's HQ and more than 200 partners in Germany, Austria, Switzerland, the Netherlands, Luxembourg, Finland, Britain, Ukraine, Hungary, Slovakia, Poland and also Italy. The next dealer near you can be found at [www.abt-sportsline.de/en/](http://www.abt-sportsline.de/en/), under "Dealer Locator".

**ABT Sportsline** gives a discount of 20% on all **ABT POWER** upgrades. Just to give you an example the Audi TT's 2.0 TFSI, with its 230 hp (169 kW), is upgraded to 310 PS (228 kW). The upgrade for the VW T6, 2.0 TDI pushes the van to 180 hp (132 kW) instead of 150 hp (110 kW).

The Audi RS3 engine is "**ABT**ed" up to 430 PS or 316 kW, 63 hp (46 kW) up, also with a **discount of 20%**. And drivers of an Audi Q5, Q3, Audi A4, Volkswagen Golf or Passat and many other models can also save money during the **ABT POWER DAYS**. Find out what upgrade is available at [www.abt-sportsline.de/en/](http://www.abt-sportsline.de/en/) and use the configurator.

But no matter what the price of the upgrade is, an "**ABT**ed" engine will always be geared to the car's engine and character, lasting a lifetime. To make all cars dependable and roadworthy, the **ABT Sportsline** engineers have tested the components' interplay on both their dynamometer and on the road. Make every day a **POWER DAY!**
